Cleaning the Lens

1 Turn the projector off and unplug the power cord.

2 Slide open the lens cover, if the lens is covered.

3 Apply a non-abrasive camera lens cleaner to a soft, dry cloth.

   Avoid using an excessive amount of cleaner, and don't apply the cleaner directly to the lens.   Abrasive cleaners, solvents or other harsh chemicals might scratch the lens.

4 Lightly wipe the cleaning cloth over the lens in a circular motion. If you don't intend to use the projector immediately, slide the lens cap closed.

Clean the lens with a soft dry cloth and non-abrasive cleaner
